Source: Compiled from plant capacity figures listed in the *Modern Brewery Age, Blue Book* (Stamford, Ct: Modern Brewery Age, various years); Charles W. Parker, "The Domestic Beer Industry" (1984) and industry trade sources. These figures do not include plants listed only on a company-consolidated basis (in the case of multiplant firms) or single-plant firms not reporting their capacity, and they exclude microbreweries of less than 10,000 barrels capacity.
